Synopsis of the Play:
The story concerns the lives of a Jewish family hiding from the German occupying forces in war-torn Amsterdam. To escape the horrors of Nazi persecution, Otto Frank hides with his wife and two daughters in attic rooms above an Amsterdam warehouse for two years. Also hiding with the Franks are four other people - the Van Daans, their son Peter, and a dentist, Mr Dussel. In her diary Anne recorded an account of the trials and tribulations of the people around her, all trying to live a normal life in cramped attic accommodation, whilst under the constant threat of discovery by the Gestapo. This is a story made all the more dramatic because it is based on a true account, and concerns the lives of real people who lived at a time of unspeakable horror for the Jewish population in many European countries.

History of WWII
After World War I much of Europe was left in economic and physical turmoil. The most affected country was Germany. After WWI Germany was forced to comply with the Treaty of Versailles, which kept Germany from having weapons and they were forced to pay fees for the war. Germany was suffering and they needed a leader, which is where Adolf Hitler stepped in with the National Socialist Party (Nazis). Hitler was very charismatic and people loved his honesty. People instantly started to praise Hitler for his work and he became supreme leader in 1934. Hitler wanted a pure German Aryan race, meaning he wanted to do away with anyone who wasn’t from a pure white German decent. War was the only way to gain enough space for his “superior race” to grow. In the mid-30’s Hitler began rearming Germany – against the Treaty of Versailles. Hitler signed alliances with Japan and Italy and the war went unchecked. The United States and the Soviet Union had internal issues and couldn’t focus on the war. Britain and France were in no shape to fight since they were still damaged by WWI. Germany invaded Poland in 1939, causing Britain and France to declare War, thus begun World War II.
Anne and Her Diary

Anne received her famous diary on her thirteenth birthday, June 12, 1942. Shortly after receiving her diary, her family was forced into hiding in the Annex. She kept entries of daily life and her own personal struggles living in the attic. She changed the names of the people in the attic and started all her entries with, “Dear Kitty.” Kitty is her best friend and is what she calls her diary. Eventually, Anne ran out of room in her original diary and had to continue writing in several other journals. Anne eventually went back to her original writings and reworked them, after hearing a call on the radio for first hand survivor accounts. Anne edited her works to make them sound more professional and elegant. Unfortunately Anne only got halfway reworking her diary before the Nazis came and forced the families out of hiding. The first publishing of Anne’s diary was June 25, 1947. Her story is translated in over fifty languages and has been adapted to theatre and film.
